

MSSNY RESIDENT AND FELLOWS SECTION

- As with every year, the RFS now begins discussion on how to retain membership from the student section to the RFS and how to grow the RFS from the various new residents entering the state. Turnover is built into our section as most of our potential members come from outside of the state initially and any current members will eventually age-out of the section.
- Currently the section is hoping to develop programming or a support network of some kind which we can use to entice new membership. Expect further updates on this by the next meeting.
- Please encourage all of your residents and fellows to strongly consider joining the RFS and reaching out to the leadership if they have any questions about the merits of the section specifically or the organization as a whole

Submitted respectfully,
Robert Viviano, DO
RFS Councilor
