

MSSNY RESIDENT AND FELLOWS SECTION

- MSSNY RFS has begun a formal dialogue with the Connecticut State Medical Society's RFS chapter to look into ways to expand both inter-state activities and expand our own MSSNY section by emulating successes they have had
- As MSSNY RFS prepares for another Interim meeting we again intend to be one of the single best represented states within the RFS and are hoping to elect and re-elect all of our candidates for AMA HoD resident positions and maintain MSSNY's honorable place as a state delegation with many young members who can caucus together.
- Dates for the RFS annual section meeting, which is expected to be split with the Young Physicians Section and possible the Medical Student Section as well, are being selected. Dates fall from early February to mid March and once we have a date finalized we will report back to strongly recommend any residents you know of with organized medicine interests attend so that they can become part of the RFS and its formal organizing efforts.

Submitted Respectfully,
Robert Viviano DO
MSSNY RFS Councilor
