

Sponsored by the Medical Society of the State of New York

Triage in a Disaster Event

Wednesday, January 18, 2017 – 7:30am

Faculty: Arthur Cooper, MD & Zachary Hickman, MD

Educational Objectives:

- ◆ Describe the importance of immediate bleeding suppression during a disaster event.
- ◆ Describe the SALT methodology for triage and where to access SALT training.
- ◆ Recognize the importance of not just general triage training, but triage training for bio-events as well.

The Mental Health Impact of Active Shooter/Bombing on the Healthcare Team

Wednesday, February 15, 2017 – 7:30am

Faculty: Craig Katz, MD

Educational Objectives:

- ◆ Describe the psychological problems and stress symptoms that can result from caring for victims of an active shooter/bombing event.
- ◆ Identify means by which members of the healthcare team can manage the stress during and after an active shooter/bombing event.
- ◆ Review resources and methodologies available to address the mental health impact of an active shooter/bombing on the healthcare team.
