

Sponsored by the Medical Society of the State of New York

The Mental Health Impact of Active Shooter/Bombing on the Healthcare Team

Wednesday, February 15, 2017 – 7:30am

Faculty: Craig Katz, MD

Educational Objectives:

- ◆ Describe the psychological problems and stress symptoms that can result from caring for victims of an active shooter/bombing event.
- ◆ Identify means by which members of the healthcare team can address stress before, during and after an active shooter/bombing event.
- ◆ Review resources and methodologies available to address the mental health impact of an active shooter/bombing on the healthcare team.

Exercise Response to Novel Influenza Strains

Wednesday, March 15, 2017 – 7:30am

Faculty: Pat Anders, MS, MEP

Educational Objectives:

- ◆ Understand preparedness and response actions of public health and healthcare to a novel pandemic influenza, simulated in full-scale exercise.
- ◆ Describe two delineated strategies in which public health and office-based physicians would interact in a pandemic influenza.
