

Current Concepts in Concussion for Pediatric & Adult Patients

Sponsored by the Medical Society of
the State of New York & The New
York State Department of Health

© The Medical Society of the State of New York

Webinar
Wednesday, April 19, 2017
1-2 p.m.

Faculty:

John Anthony Pugh, MD, PhD, assistant professor of Neurology at Albany Medical Center (AMC)
Deborah Ilana Light, MD, primary care sports medicine and associate program director for the Sports Medicine Fellowship at Albany Medical Center

Educational Objectives:

- ◆ Identify signs and symptoms indicative of concussion as well as red flags that indicate alternate or more severe pathology;
- ◆ Outline an appropriate management plan for a patient presenting with concussion including a return to "normal life" protocol;
- ◆ Describe methods for the primary and secondary prevention of concussion;
- ◆ Identify patients who would benefit from referral to a concussion specialist
