

Report of the Speaker
Kira A. Geraci-Ciardullo, MD

You will find below the schedule of events for the 2018 House of Delegates as we know them at this time. Leadership should feel free to share this information with those at their counties and districts and as more complete details become available they will be made known. Some programs are still in development. All of this information will be posted to the HOD webpages as that development progresses.

We have a full and robust schedule for the HOD in Buffalo, and we are hopeful that all counties will credential full delegations for this meeting. Several speakers have been confirmed: The Commissioner of Health will provide an update on the state of New York's health; and immediate Past President of the AMA . and Syracuse alum . Andrew Gurman, MD will be joining us on Saturday.

Again, anyone interested in serving on a reference committee during the meeting should let the office at MSSNY know by emailing lmayer@mssny.org or mreyes@mssny.org. Appointments will be made in late November, therefore credentialing and ref com service requests MUST be received by the deadline.
