

Dr. Mitchell Katz
President and Chief Executive Officer
NYC Health + Hospitals

NYC Health + Hospitals is largest municipal health system in the United States, with 11 acute care hospitals, 5 skilled nursing facilities, dozens of community health centers, a home care agency and an insurance plan, MetroPlus Health. Dr. Katz has focused on advancing the transformation of the public health care system with numerous new initiatives to expand access to primary care services, reduce administrative costs, invest in more front-line clinical staff, and build financial stability.

Previously, Dr. Katz was the Director of the Los Angeles County Health Agency, an agency that combines the Departments of Health Services, Public Health, and Mental Health into a single entity so as to provide more integrated care and programming within Los Angeles. The Agency has a budget of 7 billion dollars, 28,000 employees, and a large number of community partners. Dr. Katz served as the Director of the Los Angeles County Department of Health Services (DHS), the second largest public safety net system in the United States. During this time, he created the ambulatory care network and empaneled over 350,000 patients to a primary care home. He eliminated the deficit of DHS through increased revenues and decreased administrative expenses, and used the new ACA funding to pay for an integrated electronic health system. He moved over 4000 medically complex patients from hospitals and emergency departments into independent housing, thereby eliminating unnecessary expensive hospital care and giving the patients the dignity of their own home. Dr. Katz continued to see patients every week as an outpatient physician at Edward R. Royall Comprehensive Health Center and on the inpatient medicine service at LAC+USC, Harbor-UCLA, and Olive View-UCLA Medical Centers.

Before he came to Los Angeles Dr. Katz was the Director and Health Officer of the San Francisco Department of Health for 13 years. He is well known for funding needle exchange, creating Healthy San Francisco, outlawing the sale of tobacco at pharmacies, and winning ballot measures for rebuilding Laguna Honda Hospital and San Francisco General Hospital. He is a graduate of Yale College and Harvard Medical School. He completed an internal medicine residency at UCSF Medical School and was an RWJ Clinical Scholar.

He is the Deputy Editor of JAMA Internal Medicine, an elected member of the National Academy of Sciences (previously the Institute of Medicine) and the recipient of the Los Angeles County Medical Association 2015 Healthcare Champion of the year.
