Sponsored by the Medical Society of the State of New York

Influenza 2022-2023: Focusing on When the Flu is not the Flu

Live Webinar

Wednesday October 19, 2022 @ 7:30am

Faculty: William Valenti, MD

Educational Objectives:

- Recognize the distinction between influenza and other emerging infections such as COVID, monkeypox and polio
- Describe key indicators to look for when diagnosing patients presenting with flu-like symptoms
- Identify recommended immunizations and antiviral medications for treatment and how best to effectively encourage patients to get vaccinated
- Evaluate vaccine and booster recommendations for flu and other viral infections currently circulating
